

Lakewood Elementary School
College and Career Day!
Tuesday, February 6, 2018

Lakewood Elementary School will be hosting a college and career day for 3rd-6th grade to focus on future college and career opportunities for our students. We would love to have a variety of jobs represented from our community as this is a wonderful opportunity for our students to make a connection between what they are learning at school and what they dream about becoming in the future. Lakewood welcomes all who are interested in being a part of this great event!

The general format is as follows:

8:45-9:10 Presenters check-in with driver's license and prepare for presentation. Then enjoy coffee and snacks in the hospitality room.

9:10-9:30 Session #1

9:35-9:55 Session #2

10:00-10:20 Session #3

10:25-10:45 Session #4

The presenters give 20 minute talks; including time for questions and answers, on their college or career to four different groups of students. Students rotate to different stations where the presenters have their items set up. For this age, props or visual aids work well, whether that be in the form of PowerPoints, pictures, or actual items. As we get closer to February, I will have further information about how many students to expect in each session as well as parking information.

This event cannot happen without you and the support of the wonderful community. If interested, please call the school at 574-8152, or fill out the bottom and turn it into the school's front office by Thursday, December 21, 2017.

Thank you in advance,
Parent Engagement and Involvement Committee

Yes, I am interested in volunteering to talk about my college or career.
